It is time that we take back Broward from the RINOs to promote trump policies that simply put is AMERICA FIRST! We must drain the swamp and in our opinion the evidence and historical record proves that Richard Denapoli must be removed from his position of power and stripped of any chances of obtaining power in the Republican Party of Florida. We have Gov. Ron DeSantis running in 2022 and possibly Donald Trump running in 2024. Trump is looking for fighters to clean up the Republican Party. Will you pick up the fight and sign the RINO Recall Petition today?
